ITALY, VIMERCATE, 20 SEPTEMBER 2021

FIMER TO POWER UP INTERSOLAR 2021 WITH NEW INNOVATIVE SOLUTIONS

FIMER is set to unveil its new era of technologies at Intersolar 2021, including the world premiere of its ‘best-in-class’ platforms for residential applications.

Intersolar 2021 will mark the official launch of FIMER’s new residential platforms, which combine the latest technological innovations with high-end design features, as well as providing a first look at its latest solution for the utility sector - the PVS-350 - which was launched in June 2021.

Filippo Carzaniga, Chairman at FIMER, commented:

“We are excited that we can showcase the new era of FIMER at Intersolar 2021 with an exclusive first look of our revolutionary new platforms for the residential and utility sectors. The past 18 months have seen FIMER cement its position as a leading global renewable energy equipment supplier, with innovative new solutions across our four core lines of business - utility-scale, commercial, EVI and now residential. We have focused our efforts on R&D to maintain our technological leadership and have delivered a new strategy which has seen us appoint an experienced senior team to drive innovation, developing the best solutions for our customers.”

Also on show will be the PVS-10/33 and PVS-100/120, FIMER’s latest solutions for the C&I market, as well as several of its e-mobility technologies, including the innovative FIMER FLEXA Wallbox and AC Station.

Filippo Carzaniga continues:

“Intersolar 2021 is an opportunity for visitors to see the new era of FIMER in action, and we look forward to welcoming guests to our stand.”

FIMER’s experts will be available to discuss its extensive range of innovative solar and e-mobility platforms on stand B5.330 at Intersolar 2021 (6 to 8 October).

About FIMER

FIMER is the fourth largest, tier one, renewable energy equipment supplier in the world. Specializing in solar inverters and electric mobility systems, it has over 1100 employees worldwide and offers a comprehensive solar solutions portfolio across all applications. FIMER’s skills are further strengthened by its bold and agile approach that sees it consistently invest in R&D. With a presence in 25 countries together with local training centers and manufacturing hubs, FIMER remains close to its customers and the ever-evolving dynamics of the energy industry.
