SINGAPORE, OCTOBER 12, 2021

FIMER TO DEBUT AT ACES SINGAPORE AS IT ENTERS A NEW ERA OF SOLAR AND E-MOBILITY

FIMER is set to showcase its new era of solar technology & e-mobility at Singapore's leading renewable energy event, Asia Clean Energy Summit (ACES).

The world's fourth largest, tier one manufacturer of solar inverters will showcase its new innovative technologies and latest platforms in solar and e-mobility on 26 to 27 October 2021 at the Marina Bay Sands Expo and Convention Centre. Most notably, visitors will get a first look at the newly launched PVS-10/33, FLEXA AC Wallbox and PVS-350, in addition to FIMER's flagship products including the PVS-100 and UNO-DM-PLUS-Q that cater for a full range of applications.

Vikram Mulye, Country Director at FIMER Singapore, said: "With the surge in renewable energy investments within the region, we are excited to debut the FIMER brand at Asia Clean Energy Summit 2021. This really is the new era of FIMER which has seen us launch several new solar and e-mobility solutions – a testament to our strong presence with a significant installed base in all market segments. We look forward to connecting with our Singapore-based customers and invite them to experience FIMER's new era in-person at our booth."

Visitors can expect to get a preview of FIMER's PVS-350, as well as experience 'live' demos of FIMER's PVS-100, PVS-20/33, UNO DM-PLUS-Q and e-mobility solutions at the event. FIMER will be located at **booth E05**.

To visit, register for a visitor's pass to the event [here](#).

About FIMER

FIMER is the fourth largest, tier one, solar inverter supplier in the world. Specializing in solar inverters and mobility systems, it has over 1100 employees worldwide and offers a comprehensive solar solutions portfolio across all applications. FIMER's skills are further strengthened by its bold and agile approach that sees it consistently invest in R&D. With a presence in 25 countries together with local training centers and manufacturing hubs, FIMER remains close to its customers and the ever-evolving dynamics of the energy industry.
